

In my area market there are no radio stations which are appropriate for my children to listen to with me. KLOVE (88.3) has provided a station that has good music, encouraging filler material, and NO COMMERCIALS. Living in Nevada, I hear a ton of commercials for things I would rather not have my children know about (Casinos, strip clubs, etc) I never have to worry about obnoxious local DJs talking about an inappropriate subject (happens all the time). I ask you to reconsider any decision to displace KLOVE by an LPFM broadcaster providing other programming. We have enough of the "other entertainment" let us keep the good stuff.
